

Business Gateway Vendor test data

Attachment service (for EDRS)

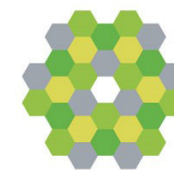

Version 2.1

Note: All tests require the basic minimum data items (as per the schemas).
 This will actually be ignored by the system but is needed to pass xml validation.
 Items highlighted in **red** in the test documentation are needed for the test to return the correct response.

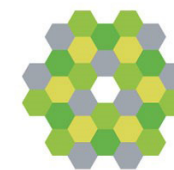

1. Attachment Service

Test: Attachment Service 01			
Test purpose: Lodge an attachment out of hours			
Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode : "10" MessageDescription: "Service is not currently available. System has queued your request, please poll at specified time." ExpectedResponseDateTime : will be the next working day.
