Land Registry

Note: All tests require the basic minimum data items (as per the schemas).
This will actually be ignored by the system but is needed to pass xml validation.
Items highlighted in red in the test documentation are needed for the test to return the correct response.

1a.   Undertake a search using the property description – Single Result

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '30'
	Password	landreg001	Generation of the following information:
	User locale[1]	en	- external reference number
	Message ID[1]	any schema valid input	- title number
Property Address	Building name / house		- tenure
	Building number / flat	99	- building name and/or building number
	Street name		- street name
	City Name		- city name
	Postcode	TQ56 4HY	- postcode
	External reference number	any schema valid input	for each matching result is returned to the CMS.
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

1b. Out of hours using Building Number, Street and City Name

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = 10
	Password	landreg001	
	User locale[1]	en	Unique id
	Message ID[1]	pollST500681	
Property Address	Building name / house		ExpectedResponseDateTime
	Building number / flat	99	
	Street name	Flake Avenue	Message Description "**Service is not currently available.System has queued your request,please poll at specified time**." returned.
	City Name	Torquay	
	Postcode		
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

1c. Poll success for search using Building Number, Street and City Name

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '30'
	Password	landreg001	Generation of the following information:
	User locale[1]	en	- external reference number
	Message ID[1]	pollST500681	- title number
			- tenure
			- building name and/or building number
			- street name
			- city name
			- postcode
			for each matching result is returned to the CMS

1. These details are mandatory and are required by the system

2a. Undertake a search using the property description – Single Result

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '30'
	Password	landreg001	Generation of the following information:
	User locale[1]	en	- external reference number
	Message ID[1]	any schema valid input	- title number

	Building number / flat	71	- building name and/or building number
	Street name	Allerburn Lea	- street name
	City Name	Alnwick	- city name
	Postcode		- postcode
	External reference number	any schema valid input	for each matching result is returned to the CMS.
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

2b. Out of hours using Building Number, Street Name and City Name

Test: Search property description 16a Test purpose: Out of hours using Building Name, Street Name and City Name			
Field group	**Field name**	**Input**	**Expected output**
Login Details	User ID	BGUser001	TypeCode = 10
	Password	landreg001	
	User locale[1]	en	Unique id
	Message ID[1]	pollND66318	
Property Address	Building name / house		ExpectedResponseDateTime
	Building number / flat	71	
	Street name	Allerburn Lea	Message Description "**Service is not currently available.System has queued your request,please poll at specified time**."
	City Name	Alnwick	
	Postcode		returned.
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

2c. Poll success for search using Building Number, Street Name and City Name

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '30'
	Password	landreg001	Generation of the following information:
	User locale[1]	en	- external reference number
	Message ID[1]	pollND66318	- title number
			- tenure
			- building name and/or building number
			- street name
			- city name
			- postcode
			for each matching result is returned to the CMS.

1. These details are mandatory and are required by the system

Land Registry

3. Undertake a search using the property description – Multiple Results

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '30'
	Password	landreg001	Generation of the following information:
	User locale[1]	en	- external reference number
	Message ID[1]	any schema valid input	- title number
Property Address	Building name / house		- tenure
	Building number / flat	27	- building name and/or building number
	Street name	Church Road	- street name
	City Name	Exeter	- city name
	Postcode		- postcode
	External reference number	any schema valid input	for each matching result is returned to the CMS.
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

4. Search against address with no properties

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = 20
	Password	landreg001	
	User locale[1]	en	External Reference
	Message ID[1]	any schema valid input	
Property Address	Building name / house	any schema valid input	**bg.properties.nopropertyfound**
	Building number / flat	any schema valid input	
	Street name	any schema valid input	Message: **"No title number has been**
	City Name	Bristol	**identified from the data supplied. This does**
	Postcode	any schema valid input	**not necessarily mean that a register of a title**
	External reference number	any schema valid input	**does not exist but only that insufficient data**
	Customer reference number	any schema valid input	**has matched."** returned.

1. These details are mandatory and are required by the system

Land Registry

5. Too many properties found

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '20'
	Password	landreg001	
	User locale[1]	en	External Reference
	Message ID[1]	any schema valid input	
Property Address	Building name / house	any schema valid input	**bg.properties.toomanyproperties**
	Building number / flat	any schema valid input	
	Street name	any schema valid input	
	City Name	Cardiff	Message: **"The property address you entered has matched with a large number of properties on our database. Please request again with refined address details."** returned.
	Postcode	any schema valid input	
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

6. Search using Schema Invalid postcode

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	Schema fault returned
	Password	landreg001	
	User locale[1]	en	
	Message ID[1]	any schema valid input	
Property Address	Building name / house	any schema valid input	
	Building number / flat	any schema valid input	
	Street name	any schema valid input	
	City Name	any schema valid input	
	Postcode	Invalid format postcode	
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

7. Search using Invalid postcode

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '20'
	Password	landreg001	
	User locale[1]	en	External reference
	Message ID[1]	any schema valid input	
Property Address	Building name / house	any schema valid input	**bg.postcode.invalid**
	Building number / flat	any schema valid input	
	Street name	any schema valid input	Message: **"Please provide valid postcode"** returned.
	City Name	any schema valid input	
	Postcode	PL1 8XX	
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

8. Search using insufficient address details

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = '20'
	Password	landreg001	
	User locale[1]	en	External Reference
	Message ID[1]	any schema valid input	
Property Address	Building name / house		**bg.invalid.property.search.criteria**
	Building number / flat		
	Street name	any schema valid input	Message: **"Insufficient address details. Please provide flat/house and postcode OR flat, street and town OR house, street and town"** returned.
	City Name	any schema valid input	
	Postcode	any schema valid input	
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

9. Access denied – Locked password

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser002	FaultCode – 'soapenv:Server'
	Password	landreg001	
	User locale[1]	en	Message "**Your account is locked. Please reset your password using Portal.**" returned.
	Message ID[1]	any schema valid input	
Property Address	Building name / house	any schema valid input	
	Building number / flat	any schema valid input	
	Street name	any schema valid input	
	City Name	any schema valid input	
	Postcode	any schema valid input	
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

Land Registry

10. Access denied – Account not activated

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser006	FaultCode – 'soapenv:Server'
	Password	landreg001	
	User locale[1]	en	Message "**Please activate your account using Portal.**" returned.
	Message ID[1]	any schema valid input	
Property Address	Building name / house	any schema valid input	
	Building number / flat	any schema valid input	
	Street name	any schema valid input	
	City Name	any schema valid input	
	Postcode	any schema valid input	
	External reference number	any schema valid input	
	Customer reference number	any schema valid input	

1. These details are mandatory and are required by the system

11. Poll Out of Hours

Field group	Field name	Input	Expected output
Login Details	User ID	BGUser001	TypeCode = 10
	Password	landreg001	
	User locale[1]	en	Unique id
	Message ID[1]	polloutofhours	
			ExpectedResponseDateTime
			Message Description "**Service is not currently available.System has queued your request,please poll at specified time**." returned.

1. These details are mandatory and are required by the system
